

**HUNTERS POINT NAVAL SHIPYARD
BASE REALIGNMENT AND CLOSURE CLEANUP TEAM
MEETING NOTES
September 7, 2018**

These notes summarize the Navy Base Realignment and Closure (BRAC) Cleanup Team (BCT) meeting for Hunters Point Naval Shipyard (HPNS) in San Francisco, California. The meeting was held on September 7, 2018 at the Navy field trailer at HPNS in San Francisco, California.

I. Introductions and Agenda Review

Mr. Derek Robinson (Navy) conducted introductions and reviewed the action items from the August 6 and 7, 2018 BCT meeting.

II. Navy Business/Action Items (Derek Robinson, Navy)

Action items from the August 6 and 7, 2018 BCT meeting have been completed.

Ms. Judy Huang U.S. Environmental Protection Agency (EPA) noted that Karen Ueno (EPA) has joined the team and will be providing support for Parcel E-2 work. Please copy her on all electronic responses and continue to send hard copy documents to Ms. Huang.

Ms. Danielle Janda (Navy) noted that Liz Roddy has joined the HPNS team and will fill-in for Paul Stoick who is on a 3-month leave of absence. Her main projects will be on Parcels E and F.

III. Document Tracking/Upcoming Fieldwork (Danielle Janda, Navy)

Ms. Janda (Navy) noted that the Navy currently has four reports under agency review including the Five-Year Review and the Parcel F Record of Decision.

Ms. Janda noted that the Navy currently has some ongoing fieldwork including the durable cover in Parcel D-1 and the sea wall in Parcel E-2. Ms. Amy Brownell, City of San Francisco (City) asked if Phase III of the Parcel E-2 fieldwork would be delayed in order to allow for California Department of Public Health (CDPH) to review the radiological scan data from the Phase II work. Ms. Janda noted that CDPH directed the Navy to continue with Phase III work of installing the soil cover and not to wait for CDPH input. CDPH will scan the surface of the landfill following final cover completion. Ms. Brownell noted that there was one sentence in the email from CDPH to the Navy that needs clarification. The Navy will contact CDPH to get further clarification on the email.

IV. Miscellaneous Topics/Updates (Derek Robinson, Navy)

Ms. Judy Huang (EPA) noted that EPA will be sending a lot of comments to the Navy on the Five-Year Review. She feels that the document is currently too high level and needs additional detail on the remedies in-place and how the Navy achieved remediation objectives. The Navy should discuss how the remedies are functioning. Ms. Huang (EPA) noted that the Navy is using the

2016 Five-Year Review template but some elements or tables were not included. If the Navy is going to use the template, then use the entire template instead of just pieces. The EPA will also be asking the Navy to re-evaluate their protectiveness statement. EPA thinks the statement should focus on short-term protectiveness with the explanation concerning the additional radiological re-work projects. The EPA will ask for additional discussion of the radiological re-work within the document and would like the Navy to acknowledge in the executive summary the additional work that is ongoing on Parcel A. Mr. Derek Robinson (Navy) noted that the Five-Year review does not cover Parcel A. The Navy management will need to be consulted regarding this EPA comment. Ms. Tina Low (California Regional Water Quality Control Board [Water Board]) mentioned that the Water Board is working on a new vapor intrusion guidance.

Ms. Jackie Lane (EPA) noted that they have submitted a formal request to their headquarters to change the name of HPNS from Treasure Island Naval Station, Hunters Point Naval Annex to HPNS.

Mr. Robinson (Navy) noted that CDPH is completing the hand scans on Parcel A-1 within a week, the work plan for scanning Parcel A-2 has been posted to their website, and the work will begin on September 17, 2018. CDPH will also present a summary of their findings from the scanning performed on Parcel A-1 at the Community Advisory Committee in September.

Mr. Robinson (Navy) noted that the community bus tour would be held on September 8, 2018. There will only be one tour due to low demand.

Mr. Matt Wright (CDPH) asked if Battelle -the Navy Quality Assurance (QA) subcontractor- is bidding on the radiological re-work. Ms. Janda confirmed that they are not. Mr. Wright asked if he could get copies of their QA reports. Ms. Janda will follow up with the BCT regarding the QA reports.

V. Action Items/Future Meetings (Mr. Robinson, Navy)

- The Navy will follow up with the BCT regarding Navy radiological QA reports.

Next Meetings:

- The next BCT is scheduled for October 4, 2018 at the Navy trailer on HPNS.

Meeting participants:

Nina Bacey, DTSC

Liz Basinet, Noreas*

Karla Brasaemle, TechLaw*

Amy Brownell, City of San Francisco

Jamie Egan, APTIM

Hamlet Hamparsumian, Noreas*

Leslie Howard, Navy*

Kellie Koenig, Jacobs*

Jackie Lane, EPA*

Tina Low, Water Board

Sharon Ohannessian, Navy*

Chris Ota, Navy*

Christina Rain, LANGAN

Liz Roddy, Navy*

Derek Robinson, Navy

Judy Huang, EPA
Danielle Janda, Navy

Karen Ueno, EPA
Matt Wright, CDPH*
